

Geography and History

The children will use maps and globes to identify Viking homelands and possible reasons for their movements. They will explore routes taken by the Vikings, areas that were invaded and geographical reasons for these invasions. They will explore how the Vikings used the land and how this changed the landscape of Britain. They will explore the legacy of the Vikings on society today. The children will develop map skills in exploring where the Vikings came from, why they invaded Britain and where they settled in Northern England

They will also develop historical skills such as placing events onto a timeline, investigating primary and secondary sources and developing understanding of daily life at the time

In addition, children will have the opportunity to take part in role play and storytelling sessions, which will help bring to life a journey in a Viking longboat over the oceans of the world.

Maths

Mental calculations using all 4 operations.
Fractions decimals percentages and ratios and probability
Written methods for calculations.
Co-ordinates
Angles
Measures
Using mathematical reasoning.
Problem solving

Literacy- 'Life of Pi'

Analysing sections of the text.
Narrative techniques, using the text as a stimulus.
Writing flashbacks.
Autobiographical writing in role as main characters from the text.
Analysing and writing different poetic forms related to the sea.
Book and film review of 'Life of Pi'

OVER THE DEEP BLUE SEA

French

Food
In a cafe
Conversation skills

Music

Analysing features in music
Binary, ternary or rondo
Composition
Performing and evaluating

Art/DT

Children will study the painting 'A Viking Funeral' and use it to find clues about the period.
Children will design and make their own sock monkeys.

Science

Animals including humans

Looking at the main function of the heart, lungs and blood.

Understand the effect of drugs and alcohol
Understand how to sustain a healthy life style

Interdependence and adaptation

Photosynthesis

Different plants grow in different types of soil

Food chains and feeding relationships

Animals and plants adapt to their environment and are interdependent

RE

Understanding important features of Hinduism, including the similarities and differences with other faith systems.

The Easter story.

PE

Gymnastics
Dance
Quicksticks
Netball
