

### Maths:

Children will continue to consolidate on their understanding of number. The children will develop their understanding of place value and strategies for adding and subtracting numbers.

### Science:

Children will develop their understanding of materials and their properties. Children will also strengthen their scientific enquiry skills. We will be visiting the Herstmonceux Science Observatory to explore some important inventions.

### Geography:

Children will identify the major oceans and the continents using maps, atlases and the correct directional vocabulary.

**Music:** Children will continue to use a variety of musical instruments and rehearse simple melodies.

### PE:

Children will develop their gymnastic skills and will participate in outdoor team games.

### Literacy:

During this term, children will write for a variety of purposes. For example, they will be writing their own adventure stories using Mrs Armitage on Wheels as their stimulus. They will also be looking at information texts and persuasive writing.

### Computing:

During computing lessons, the children will continue to develop familiarity with the keyboard. Children will also understand how to program.

### Art/ DT:

Children will be looking at artists such as Picasso who were pioneers in the world of Art. They will also be using a variety of materials to make their own pieces.

### RE/PSHE:

Children will understand the value of friendship and the qualities needed to be a good friend. The Easter story will also be read to the children.

# Year 2 Spring Term 2018 Inventors and Pioneers

### History:

In history, children will learn about inventions that have improved everyday life and pioneering people from different periods.
