

### Literacy and Reading

Write down and explain your 'top tips' for your class. Can you write some advice to the year below for next year? What has been the best part that they will love? What challenge should they really relish? What should they concentrate on the most because you found it really tricky?

Write a thank you letter to forest school for all the activities that you did this year – what was the best? What was fun? What challenged you?

Questions for your teacher. Write down some questions that you have about next year – what do you want to find out? Remember to use a question mark!

Try and get a head start on next year - look up the **spellings list** for your phase or the next phase and test yourself – which ones do you need to work on?

### Understanding the World (Science, History and Geography)

Can you dream? What will the future hold? What are the ingredients? Make some **BFG style dream potions** (see separate resource) to try and make your dreams come true. Remember to discuss everything you are doing and seeing – what do you think will happen? What happens? Can you explain it? What might happen next?

### Physical Development (PE)

Make your own athletics challenge with your family. Try to include throwing, jumping and running. Think back to last years sports day – what activities did you do? Could you use some items from in your house to recreate it?

## **Our World! - You!**

Week 7

Transition

### Personal, Social and Health Education PSHE

If you had a responsibility this year discuss it with your family and write down your experience of it. If you would like a responsibility next year – can you think of which one and why? Maybe get a head start on your speech/letter?

Look at the **scenario cards** – talk to your family about what you could do in different situations.

### Communication and Language

Make an '**All About Me**' pack for your new teacher so they can get a head start at getting to know you. Discuss this with your family – do they agree with you on everything?

Can you make some jokes up about this year – what has been funny? What has made you laugh? Make them up and tell them to your family – did they find them funny?

### Creative (Music, Drama and Art)

Unfortunately, we didn't have class photos this year – can you make one? You could draw it.

What have been your favourite memories of this year? Can you make a poster to explain them?

### Maths

See separate sheet for activities

Extra credit: Make a 'reading challenge' list for the books you want to read over the summer holidays and see if you can get hold of some of them.
