

### Can you.....?

- Count forwards and backwards in jumps of 2s, 5s and 10s. Challenge: forwards and backwards in jumps of 3. (Hint: Use a **number square** to help you.)
- Read and write all numbers from 0 to 100 in numbers and words.

Add up the cost of each ice-cream (You can use a **number square** to help).

### Values!

Write the **value** of each of the coins (**notes are available on the website**).

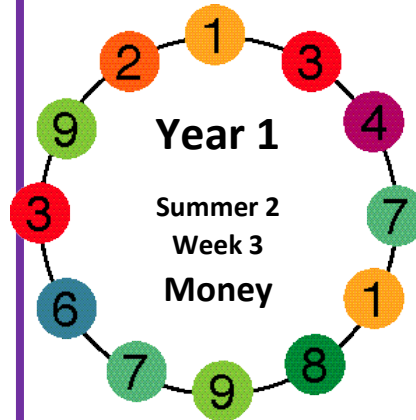

Can you put the **coins in order** from the lowest value to the highest value?

How many pennies make up 50p?

How many pennies make up £1?

How many pennies make up £5?

How many pennies make up £7?

### Challenge linked to topic

Create your own holiday shop selling items that you might want to take on your holiday to the continent of North America.

You could find objects around your house or draw them out onto paper and then label them with different amounts.

Can you pay for items using the correct coins (**or paper coins**)?

Challenge: can you give the correct change if someone pays too much for an item?

Kira has 2 silver coins.

Harland has 5 bronze coins.

Ted has 1 silver coins.

They all have the same amount of money.

Which coins do they each have?

Draw the coins to prove it.
