It doesn't matter where we've come from

It doesn't matter where we've been

We're all special and equal

And we all deserve to DREAM

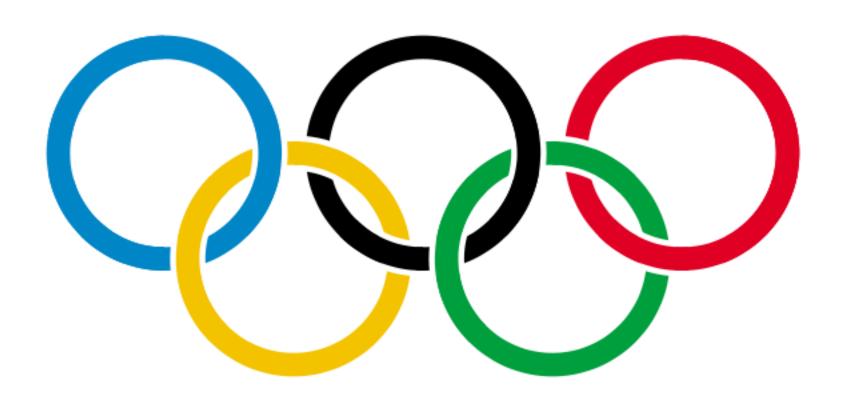

What the future holds we don't know
But we want to make our mark.
Whether in our own Olympics
Or creating a piece of art.

We'll stand up and be counted

We'll go across the earth

We'll learn to make

And we'll show you what we're worth!

We'll do our best, we'll progress, we'll invest in the future

We can reach, we can climb, we can dream altogether

There's no limit to what we can do!

Do you feel it too?
