Tuesday $19^{\text {th }}$ January
Subtract 2-digit numbers
23-10=
44-20-
67-30=
68-50=
74-40=

$$
\begin{aligned}
& 36-13= \\
& 44-32= \\
& 25-17= \\
& 19-11= \\
& 41-27=
\end{aligned}
$$

Use a ruler.
Partition the number you are taking away. Subtract the tens first then subtract the ones.

15 ducks are on the pond.
11 of them go away.
How many are left?

Which number is the arrow $(\downarrow)$ pointing to?
Write it in the box.

850
950
