TBAT: Identify the key features of a letter

Hi fellow inventors!

My name is Alexis Switch and I need your help! In my busy workshop, I have been inventing incredible things for years. Guess what? I am about to create my most amazing and useful invention yet - a robot that will do ANYTHING YOU WANT!

I am looking for inspiring ideas about what my new robot should do. If you can persuade me that YOUR ideas are the best, then I would love to construct the robot for you!
