

Which Script?

There are many different ways of writing numbers around the world!

On this grid, you will see 6 numbers written. Can you spot the ones written in English? There are 4 other different scripts for the same numbers jumbled up. Can you sort them out into the five separate scripts?

Challenge: Using this information, can you add the number 51 in each script?

Extra Challenge:

You might like to research which languages and countries use these symbols!

Can you research any other scripts to add to these?
