

## Start

**1. Read** the word problem and **underline** the important information. Use the tick boxes next to each question to show you have finished.

☐

**2.** 24 children are in the assembly hall. 12 more children come in. How many children are in the hall altogether?

☐

**3. Choose** the correct calculation.

$24 + 12 \quad \square$

$24 - 12 \quad \square$

$24 \times 12 \quad \square$

$24 \div 12 \quad \square$

☐

## My Addition Word Problem Thinkboard

## Finish

**6. Check** your answer.

I've done the same calculation again.

I've checked the inverse.

$\square - 12 = 24$

☐

**5. Answer** the question, using the same units.

There are  $\square$  children in the hall altogether.

☐

**4. Solve** the problem.

$24 \square 12 =$

I used concrete resources.

☐

## Start

**1. Read** the word problem and **underline** the important information. Use the tick boxes next to each question to show you have finished.

☐

**2.** Irina has 10p more than me. I have 38p. How much does Irina have?

☐

**3. Choose** the correct calculation.

$38 + 10 \quad \square$

$38 - 10 \quad \square$

$38 \times 10 \quad \square$

$38 \div 10 \quad \square$

☐

## Finish

**6. Check** your answer.

I've done the same calculation again.

I've checked the inverse.

$\square - 10 = 38$

☐

**5. Answer** the question, using the same units.

Irina has  $\square$  p.

☐

**4. Solve** the problem.

$38 \square 10 =$

I used concrete resources.

☐

## Start

**1. Read** the word problem and **underline** the important information. Use the tick boxes next to each question to show you have finished.

☐

**2.** A glitter pen costs 11p more than a pencil. A pencil costs 23p. How much does a glitter pen cost?

☐

**3. Choose** the correct calculation.

$23 + 11 \quad \square$

$23 - 11 \quad \square$

$23 \times 11 \quad \square$

$23 \div 11 \quad \square$

☐

## My Addition Word Problem Thinkboard

## Finish

**6. Check** your answer.

I've done the same calculation again.

I've checked the inverse.

$\square - 11 = 23$

☐

**5. Answer** the question, using the same units.

A glitter pen costs  $\square$  p.

☐

**4. Solve** the problem.

$23 \square 11 =$

I used concrete resources.
