

It doesn't matter where we've come from  
It doesn't matter where we've been  
We're all special and equal  
And we all deserve to **DREAM**

We can climb a mountain  
Or go camping in a field

We can be creative  
and cook a homegrown meal

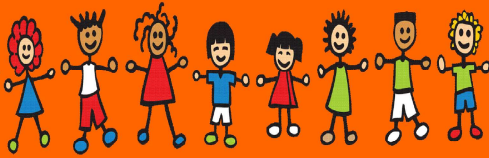

We're reaching higher  
There's a promise held up high

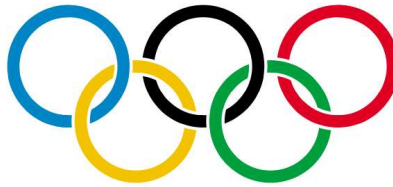

That we'll do greater, together  
Now is our time!

Each one of us is different but we all have  
the same chance,  
To reach up higher, together, right now

What the future holds we don't know  
But we want to make our mark.  
Whether in our own Olympics  
Or creating a piece of art.

We'll stand up and be counted

We'll go across the earth

We'll learn to make **MUSIC**

And we'll show you  
what we're worth!

We're reaching higher  
There's a promise held up high

That we'll do greater, together  
Now is our time!

Each one of us is different but we all have  
the same chance,  
To reach up higher, together, right now

We'll do our best, we'll progress,  
we'll invest in the future

We can reach, we can climb,  
we can dream altogether

**There's no limit to  
what we can do!**

Do you feel it too?

We're reaching higher  
There's a promise held up high

That we'll do greater, together  
Now is our time!

Each one of us is different but we all have  
the same chance,  
To reach up higher, together, right now
